The Talisman of Humanity
There exist three
Talismans of great power.
These talismans were
created by Selzanhik in
an effort to interrogate
an orc prisoner. The
Talismans had no effect
on a true orc, however if
an orc was part human
the talisman would
enhance the human
characteristics and allow
the creature to pass as
human. Sir Geoffrey
feared that the talismans
could be used as weapons,
allowing orcs of mixed
blood to infiltrate the
ranks of humans. Sir
Geoffrey ordered the
talismans to be secured.
One was placed in Wind,
no orc would ever be able
to pass the entrance
given their small brains.
The other two were
hidden on Isle lands,
believing no orc would
dare cross the water.
